

ROBOT OPERATOR / PROJECT ENGINEER

THE COMPANY

August Robotics is an **international company** which builds application-specific robots to automate workflows for businesses. We believe in the potential for **humans and robots to collaborate and co-operate**, and we aspire to be at the forefront of the coming “robotics revolution”.

August Robotics recently released its first robot, an application-specific robot for the global trade show industry, and in line with its commercial rollout, is **expanding its team in the UK**.

THE ROLE

Responsibilities:

- You will operate innovative robotic technologies within the trade show industry and ensure satisfaction of our clients
- You will play a leading role in the establishment of our office in Birmingham and the roll-out of August Robotics’ robotic services across the UK
- You will be the day-to-day technical point of contact for our clients in the UK
- You will be responsible for ongoing maintenance and upgrades to our robotic systems in the UK
- You will be in charge of providing training to assistant robot operators, and for leading teams during operations
- You will be in charge of gathering feedback from clients, and reporting your findings to the August Robotics R&D team

Benefits:

- You will be given the opportunity to develop quickly in a fast-growing start-up environment, on the forefront of the robotics and AI wave
- You will be provided comprehensive training both upfront and throughout your employment
- A full-time, permanent role is on offer
- Attractive remuneration available

REQUIREMENTS

Must have:

- Minimum Bachelor’s degree in Engineering, Electrical Engineering, Mechanical Engineering, Computer Science or similar (alternatively, relevant technical training)
- Entrepreneurial drive, creative spirit, and ability to think laterally and proactively to solve problems
- Willingness to learn and interest in innovative technologies and automation
- Excellent verbal and written communication skills
- Ability to work flexible hours (operations will often occur outside of regular business hours, including overnight)
- Right to work in the UK (without needing company sponsorship)

Favourable to have:

- At least two years’ of relevant work experience
- Prior experience with operations and/or development of robotic systems (or similar)
- Prior experience with project management, and dealing with clients within the trade show and events industry
- Conversational skills in Mandarin Chinese would be advantageous for this role (but not required)

HOW TO APPLY

Interested in joining a fast-growing start-up that is disrupting the trade show industry? Are you just the person we are looking for?

This is a unique opportunity to join a well-funded international start-up during the early stages of growth. This role will be based in Birmingham.

To apply, please send your CV and cover letter (with subject line “Robot Operator UK”) to employment@augustrobotics.com.
