

# ELECTRO-MECHANICAL ASSEMBLER

## THE COMPANY

August Robotics is an international startup which builds **application-specific robots** to automate workflows for businesses. The company has offices on three different continents (USA, Germany, China/Hong Kong) and enjoys the support of some of Asia-Pacific's most prolific VC investors.

August Robotics aspires to be at the forefront of the coming "robotics revolution" and has numerous robotic product lines across different sectors of the economy. Our robots serve clients in the exhibition, construction and industrial layout industries, and we are currently growing our team in **Las Vegas, NV**.

## YOUR SKILLS

You **must** have:

- Strong interest in technology, robotics, and/or mechanical engineering
- Experience in **assembling and/or maintaining mechanical equipment**, such as automation systems, motor vehicles, production machinery, and assembly lines.
- Educational background of at least a secondary vocational school, preferably in an electrical-related field or with strong experience in electrical work.
- Ability to meticulously **follow detailed technical instructions** with a diligent and precise approach.
- Excellent **organizational skills**
- Excellent **communication skills** and a strong ability to collaborate within a team.
- Ability to foresee potential issues and proactively seek assistance when necessary
- **Positive work attitude**, a strong eagerness to learn, and a keen drive for self-improvement.

In addition to the above requirements, ALL of which you must demonstrate to be considered for this role, the following skills are helpful but not required:

- Proficiency in **Mandarin Chinese** (either spoken or written Chinese, or both) would be extremely helpful
- Hands-on experience in assembling robots, motor vehicles or other electro-mechanical equipment or components

You should be **comfortable** to put hands dirty on real physical devices. You should be **open to new experiences**, open to learning new things, and willing to jump in and lend a hand on a range of different issues and tasks when the need arises.

## RESPONSIBILITIES

As an electro-mechanical assembler, your responsibilities will center around the assembly and maintenance of our various robotics products. After receiving training from the mechanical engineering team, you will be responsible for **assembling** the company's **robotic products and components** in our manufacturing facility in Las Vegas, Nevada. This assembly work will be your main role with the company.

In addition to your assembly work, you will also:

- Categorize, organize, and manage robot parts, components, and accessories in the company workshop.
- Support colleagues with daily **robot testing** and related procedures, assisting test engineers in conducting full-system tests on the robots.
- **Maintain** the company's fleet of robots by ensuring that all robots remain clean, fully functional, and that prototypes, components and spare parts are kept in optimal condition.
- **Troubleshoot** robot issues and assist with cleaning paint systems, product packaging, logistics, and loading / unloading of robots before and after jobs.

## HOW TO APPLY

To apply, please send your resumé and cover letter to [employment@augustrobotics.com](mailto:employment@augustrobotics.com). Vacation pay, health care and other benefits will be available to qualified candidates based on experience and qualifications.

The future is now waiting for you – and we hope to be welcoming you soon as part of our international robotics team!
