

# WAREHOUSE ASSOCIATE AND ROBOT MECHANIC

## THE COMPANY

August Robotics is an international startup which builds **application-specific robots** to automate workflows for businesses. The company has offices on three different continents (USA, Germany, China/Hong Kong) and enjoys the support of some of Asia-Pacific's most prolific VC investors.

August Robotics aspires to be at the forefront of the coming "robotics revolution" and has numerous robotic product lines across different sectors of the economy. Our robots serve clients in the exhibition, construction and industrial layout industries, and we are currently growing our team in **Las Vegas, NV**.

## YOUR SKILLS

You **must** have:

- **2-5 years of experience** in a hands-on role such as mechanic, maintenance worker, warehouse associate, technical support, or equipment installer.
- **High initiative**, proactivity, independent thinking and **excellent problem-solving skills**
- Ability and eagerness to learn new skills
- Excellent **organizational skills**
- Outstanding **communication skills** and a strong ability to collaborate within a team.
- Ability to foresee potential issues and proactively seek assistance when necessary
- Openness to working in a start-up environment
- **Positive work attitude**, a strong eagerness to learn, and a keen drive for self-improvement.

In addition to the above requirements, the following skills are helpful but not required:

- Experience with **warehouse or inventory systems** is a strong plus
- Experience working with a **Las Vegas labor union**, for example Teamsters, LiUNA, etc..

You should be **comfortable** to put hands dirty on real physical devices. You should be **open to new experiences**, open to learning new things, and willing to jump in and lend a hand on a range of different issues and tasks when the need arises.

## RESPONSIBILITIES

As a Warehouse Associate and Robot Mechanic, your responsibilities will include managing the office warehouse, as well as installing, testing, and operating the company's robotic products at client sites. Specific responsibilities include, but are not limited to:

- Monitoring and **maintaining the inventory system** for robots, robot accessories, spare parts, tools, paints and other office consumables, and keeping the office organized, tidy and well-stocked
- Being responsible for **all warehouse functions** in our Las Vegas office, for example loading and unloading the truck before and after jobs, processing deliveries, **packaging robots** prior to transportation, and the maintenance / cleaning of robot printing systems
- Acting as a Robot Mechanic, to **install, deploy** and operate our innovative robot (Lionel) technology in the exhibition industry, and also in the industrial layout and construction sectors
- Occasional **domestic travel** to deploy robots at exhibition centers around the nation, and assist our clients to properly maintain their robots on site
- **Managing and troubleshooting** the company's fleet of robots on sites around North America and making sure all robots are running smoothly at all times
- Carrying out ongoing **maintenance** of the robots at our workshop in Las Vegas and on the client site
- **Conducting user training** for August Robotics clients and developing training materials accordingly
- Assist colleagues in other functions around the office where required, for example **robot assembly** and **full-system robot testing**

## HOW TO APPLY

To apply, please send your resumé and cover letter to [employment@augustrobotics.com](mailto:employment@augustrobotics.com). Vacation pay, health care and other benefits will be available to qualified candidates based on experience and qualifications.

The future is now waiting for you – and we hope to be welcoming you soon as part of our international robotics team!
